Art of Leadership

Leadership is a subtle mix.

We need to be determined & focused without being stubborn & blinkered.

We need to be spontaneous & enthusiastic without being impulsive & erratic.

We need to be patient & accommodating without being passive and acquiescing.

We need to be disciplined & structured without being dogmatic & rigid.

Leadership is about getting things done.

Get things done now.

Get things done together.

Get things done respectfully.

Get things done correctly.

How bright is your rainbow?
